

## Blockchain Intelligence Trainee

We are the Pioneer and Leading Blockchain think and action tank in Europe and Latinamerica. Active since 2017 we have increased our operations to 10+ countries and served private and public sector in three main áreas:

- Business consultancy.
- Public Policy and regulation.
- Education, skill building an awareness.

We are critical minds searching to improve society through tecnology. Your main focus would be to work for one of our main projects “DevAirCity”, an EU funded Project aiming at reducing Co2 emisions and improving Air Quality by creating a Blockchain based tool to remunerate citizens´ sustainable behaviour in cooperation with 5 EU cities.

We are looking for a multiskilled, results orinted and flexible trainee with passion for technologies and their impact in society.

What you need:

- BA Degree in Business Administration, Economics, Law or Ingeniering.
- Interest in Blockchain technology (postgraduate education or proven experience will be an asset).
- Passion for digital transformation.
- Fully fluent in English and Spanish.
- Writing and oral skills.
- Entreprenuerial spirit. We are a start up, constantly innovating to create new products and approaches to the world of Blockchain and AI. You should love and embrace constant evolution, creativity, efficient work and ready to market delivery.
- Results based approach.

What we offer:

- We are conscious that you are here to learn and develop your skills so you will be fully integrated in our activities.
- Forward thinking and creative environment.
- Flexible work conditions.
- International markets.
- Possibilities to grow within the company.

Is this for you??

Please check whether you fulfill the conditions in the description above and if you are sure it is a match, send us your resumee to [info@blockchainintelligence.es](mailto:info@blockchainintelligence.es)
